## WORK EXPERIENCE

---

### Wun2Free - Games Attendant

June 2022 - current

Vancouver, BC

- Effectively communicate and promote games to customers, highlighting their features and benefits. Demonstrate a thorough understanding of game rules and mechanics to assist customers in making informed purchasing decisions.
- Set up game stations and equipment, ensuring they are in proper working condition. Conduct regular maintenance checks to identify and resolve any technical issues promptly. Keep game areas clean, organized, and visually appealing to attract customers.
- Manage cash transactions accurately, handling payments from customers and providing change when necessary. Handling policies and procedures to maintain financial integrity and minimize errors.

## PROJECTS

---

### Chat Room

- Designed and developed a chat room application using React.js and Google Firebase, Using modern web technologies to deliver an interactive and responsive user interface.
- Implemented user authentication functionalities, allowing users to create accounts, securely log in, and maintain personalized profiles within the chat room application.
- Integrated Google Firebase's Firestore database to store and manage chat messages, user profiles, and other relevant data. Implemented data retrieval and storage operations efficiently and securely.
